A PENTHOUSE WITH PRESTIGE

Harmonised living spaces and the latest
in home automation makes this one
sought-after city penthouse

Ashburton-based Woodford Architecture and Interiors was the winner of an exclusive competition to design a penthouse apartment in Exeter, described as one of the most desirable and prestigious new residential addresses in Devon.

The design incorporates a number of the latest innovations in home automation, audiovisual and lighting technologies, including electrochromic glass and picture lift mechanisms.

The design of this outstanding modern apartment creates harmonised spaces using a minimal palette of materials to produce a vibrant, warm and unique home.

“I am using Woodford Architecture for this penthouse,” says the client. “They have excelled in the design, and in communicating with the builders. I would recommend them to anyone who only wants the best.”
